

Specialty Crop Community Databases and Breeding Data Management Tools Workshop

Tuesday, Sept. 24
10 AM – 12 PM
Coral 2

Need to know how to use the crop database searches and tools to make your research more effective?

Do you want to manage private breeding program data with BIMS?

Come to our [workshop](#)!

- Introduction to the Workshop and Specialty Crop Research Databases, by Dorrie Main
- How to Efficiently Use Integrated Genomics Data and Tools for Research, by Jodi Humann
- How to Efficiently Use Integrated Genetics Data and Tools for Research, by Sook Jung
- How to Efficiently Use Integrated Germplasm and Genotype data for Research, by Jill Bushakra
- How to Use the Field Book App for Phenotypic Data Collection, by Trevor Rife
- How to use the Breeding Information Management System, BIMS, for Crop Improvement, by Sushan Ru
